Description

This is a good pair of early 20th century French walnut bedside cabinets in beautiful clean condition dating from around 1930. The bedsides are attractively inlaid to the drawer fronts of the three useful drawers in the cabinet. The figured breche marble tops are in excellent clean condition with a lovely polish and patina. The slender cabriole legs give these an attractive appearance and they are embellished with solid cast ormolu mounts to the sides, frieze and feet. The cabinets measure 72 cms high by 42 wide by 27 deep. UK delivery can be arranged with our trusted furniture courier and costs £65 plus vat to most destinations.
