Item Reference: SA1224506

Date of manufacture: 19th Century

Description

This is a very handsome Regency period mirror of unusually large scale in very nice original condition. The mirror has its original gilded finish in very nice order with elongated Corinthian column pilasters to the sides which have nice scroll and acanthus detail. The upper glass frieze has an elegant reverse painted Verre Eglomise panel with Regency floral swags. The mirror plate is the original mercury glass which is in good useable condition with the usual historic marks and spotting that occur due to normal ageing. (Best observed in the first photo) This is larger than most examples of this type of mirror we have previously had, measuring 104 cms high overall. It is 63 cms wide and 9 cms in depth. UK delivery can be arranged with our trusted furniture courier and costs £60 plus vat to most destinations.
