Item Reference: SA1224589**Date of manufacture: 1910**

Description

We have a super quality set of six walnut Arts & Crafts style dining chairs by Scottish maker Joseph Johnstone of Lochwinnoch C.1910. The design number is stamped to the underneath of all the chairs. The chairs by Joseph Johnstone have good solid well coloured walnut frames with tall backrests featuring modest moulded roundels to the top rail over attractively shaped slats and with square pommel tops to the rear stiles. The chairs are raised on square tapering front legs with a lightly flared foot, joined with wide H stretchers. Condition is good with of course sensible day to day use however very solid and of pleasing old walnut tone. The seats are usable if you wish with a rust coloured short cut velvet. Our professional upholsterer could fully reupholster the seats including new webbing for £55 per chair plus VAT. You would require 2-2.5 metres of fabric for all 6 which we are happy to assist in sourcing, maybe a Morris fabric would look perfect? The choice of fabrics are endless and we are able to offer a full advice and swatch service. A fine set of 6 Scottish Arts & Crafts dining chairs.
