Description

A good example of an original WWI era military 'Powder Monkey' used for transporting gun powder from the ship's hold to the cannons or transporting shells on the battlefield. It has a painted canvas exterior with a leather handle and the military coat of arms on the front. It is in very good condition for its age with a beautiful patina. There are some general marks and scuffs and some losses and old repairs here and there but nothing untoward for a piece like this and it is a very decorative item. It has been lightly cleaned and polished and displays beautifully. Approximate Measurements : Width : 6" / 15cm Height to Rim : 13 1/2" / 35cm The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
