Description

A beautifully rare Eastern solid silver and enamel box. It is signed and tests as high grade silver. I would date it to c1920-1940. It has been superbly designed with the lid being enamelled. It is in superb condition being free from dings splits chips cracks and repairs. The enamel is free from chips cracks and repairs other then on a few tiny red areas. It measures approx. 2 inches (5cm) across and weighs 48 grams. A superbly made very high-quality piece.
