Item Reference: SA1225977**Date of manufacture: Victorian**

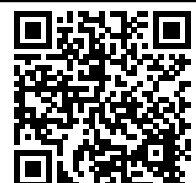

Description

DESCRIPTION A large Victorian mahogany overmantel mirror in the Chippendale Revival taste, retaining three bevelled mirror plates within parcel-gilt slips and an elaborate pierced cresting decorated with ho-ho birds, scrolling foliage and pierced fretwork. The rectangular frame is surmounted by a finely carved open pediment centred with a pair of opposing ho-ho birds amidst foliate scrolls and flanked by pierced gilt rosettes. The three original bevelled mirror plates are divided by slender mahogany uprights with gilt mouldings, creating a balanced architectural design typical of high-quality late Victorian cabinet making inspired by eighteenth-century Chippendale furniture. The rich mahogany frame combined with restrained parcel gilt decoration gives the mirror an elegant appearance, making it equally suited to a period interior or as a statement piece in a more contemporary setting. The generous proportions and triptych arrangement provide a broad reflective surface whilst retaining a lighter visual appearance than a single large mirror. A decorative Victorian overmantel mirror of good quality and impressive scale. DIMENSIONS Height: 84 cm Width: 117 cm Depth: 10 cm...
