## Description

This is a very attractive all original 18th century oak Welsh dresser. The design is what drew me to this, with the large arches below the drawers which give this dresser a real elegance. The large trip of drawers offer plenty of storage and then there are 6 smaller drawers in the plate rack. All run smooth. The plate rack fits effortlessly into the base but I would suggest bracing to a wall once in situ just to be safe. The colour of the oak throughout is stunning with attractive patina. The shaped top of the plate rack and the arched base along with a number of smaller details set this dresser apart from others.
