Description

This is an all original 19th century pine prep table. It has seen a hard life with numerous gross grain cuts into the top but there now give the piece a huge amount of character. The patina that has occurred over the years is wonderful and the lower shelf shows this just as well. The whole table stands of 6 legs of solid chamfered pine. The top is made of 4 thick planks of pine that have a gorgeous grain to them. The table is complete with 4 drawers and all open and close easily. This is a perfect kitchen island / prep table or would make an amazing counter in retail or hospitality. The piece comes as one so please make sure access is large enough to fit the table in.
