Description

Set of 4 Victorian Heraldic Crested Chairs circa 1850. We are pleased to present an interesting set of four Victorian chairs, dating to around circa 1850. The chairs feature intricately carved wooden frames, each topped with a British Isle crest with gilt accents. The detailed carvings and elegant design are characteristic of the period, offering a glimpse into the decorative style of the time. Dimensions: Height: 102 cm Width: 45 cm Depth: 48 cm. The frames are in generally good condition with sound joints, though there are a few marks and old repairs consistent with age. One of the crests has a minor chip, which is reflected in the price. The chairs have been stripped, making them ready for upholstery, allowing for a fresh look to suit modern tastes or to maintain their original charm.
