Description

A most interesting grandfather clock with a musical movement, chiming on tubular bells which can be activated or silenced at will. The movement is of eight day duration, and comes complete with a very unusual precision pendulum. This fine clock strikes the hours, quarter, half hours and three quarters on tubular bells, and there is a selection of peals Westminster, Saint Michael, and Whittington. This is a very clean and well maintained clock which would enhance the decor of a fine home.
