Antique 2.65 Carat Tsavorite Solitaire Ring, dated 1919

Price

GBP 3,500

| USD \$4,727 | EUR 4,096

Item Reference: SA1226902**Date of manufacture: 1910**

Description

A wonderful 18k yellow gold dress ring. The ring is centred by a substantial 2.65ct (approx.) natural tsavorite displaying a vivid emerald-green colour. Delicate hand-engraved scrolling shoulders frame the gemstone beautifully, and lead to a nicely weighty D-shaped shank. Although the mount dates from 1919, the tsavorite (a gem not discovered until the 1960s) is a later replacement creating a marriage between an authentic handmade ring from the early 20th century, with one of the most sought after gemstones from the early 21st century. Hallmarked at the Birmingham Assay Office in 1919. Accompanied by an independent jewellery report from WGI. Cut: Long cushion. Carat: Approximately 2.65. Dated: 1919. Size: Q 1/2 (UK) or 8 1/4 (US). Free sizing available. Measurements: The tsavorite is 11.32 x 6.73mm and sits 4.7mm from the finger. Weight: 6.42 grams. Metal: 18k yellow gold. Hallmarked.
