Description

Elgin full hunter pocket watch, 1915. The watch has a seven jewel stem-winding movement, grade 292, which is working nicely. The movement is fully signed and it has the serial number 18,215,560 which dates it back to 1915. The movement is protected by an inner hinged cover which has a few short scratches. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it is in nice condition, just light surface marks but nothing too serious. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The signed dial is in good condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
