Description

A good quality taxidermy elephant foot dating from the late 19th / early 20th Century. It is a good large size and it has a suede covered top. It is in very good condition for its age and displays well. The skin has a good colour and texture and the nails are in good order. There are of course signs of age and use and there are some minor holes above one nail (see photo) but due to the shape of the foot it is not really noticeable. There is some rubbing and wear to the suede top in places but no holes or tears. It has been lightly cleaned and is ready for use. Approximate Measurements : Height : 19" / 48cm Top Diameter : 16" / 41cm Width : 17" / 43cm The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
