Item Reference: SA1227741**Date of manufacture: 1890**

Description

A beautiful rare solid silver Indian belt & buckle. It is unmarked but tests as high grade silver. I would date it to c1890-1900 almost certainly made in Kutch. It has been beautifully hand made being embossed and chased with scrolls and flowers. It is in superb condition being free from dings splits holes and repairs. It measures approx. 28.25 inches (71.7cm) long by 2 inches (5.1cm) wide at the buckle and almost 1.5 inches (3.6cm) wide on the belt the whole piece weighs 180 grams. A superbly designed beautiful example.

Internal Ref: 286/100/33
