Dimensions

Height = 24 cm (9.4")

Width = 13 cm (5.1")

Depth = 13 cm (5.1")

## Description

Originating from Czech Republic this Art Deco vase not has kerb side appeal with it's very distinctive turquoise colouring with jet black enamel accents but is a great size standing just over 24 cm. Condition is excellent, I couldn't find any damage or flaws to note. Typical of Palda glass, this vase has the iconic reverse etched stylized floral accents. The enamel is bright and crisp and free from any oxidation often found of enamel from the 30's. A fabulous vase that won't disappoint. The most common color of uranium glass is pale yellowish-green, which in the 1930s led to the nickname "Vaseline glass" based on a perceived resemblance to the appearance (which was a yellow-green colour) of Vaseline brand petroleum jelly as formulated and commercially sold at that time. This vase definitely won't disappoint, we defy the new owner not to fall in love it.
