Description

Antique silver pocket watch, 1925. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1925 with a case maker's mark for the English watch case maker Aaron Dennison. The Dennison Watch Case Company often supplied cases for Swiss movements so as to avoid expensive import duty on precious metals. The case is in good condition, just a little gentle unevenness to the back, and an indentation to the side mostly hidden by the case backs. The acrylic lens is in good condition. The dial is in super condition. Original handsomely shaped hands in a blued steel finish. The watch comes in a new presentation box.
