Description

A lovely miniature chest of drawers dating from the early 20th Century. It is a charming piece with two small over two long drawers, each with small brass knobs. It is made from a mixture of pine with its original painted finish and oak fronted drawers. It is crudely made but there is something delightful in its naivety. It is in good original condition with a lovely patina. The drawers are generally clean and tidy and open smoothly. There are some general signs of age and use, some minor marks and small chips to the paint but nothing detrimental and overall it displays well. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £10
