Description

Gents Eterna Matic automatic wrist watch, 1956. The watch has a calibre 1488U automatic movement which is working nicely. The movement is fully signed and it has the serial number 4,092,474 which dates it back to 1956. The watch measures 32.5mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in lovely condition, just minor marking to the back. The lens is in lovely condition. The signed dial is in its original finish with original hands, centre seconds hand and a date display (an early form of quickset date where the hands are repeatedly turned backwards and forwards between 12 midnight and 8pm). A nice even tropical finish. A new leather strap has been fitted. The watch comes in a new presentation box.
