Description

This is a very unusual all original Elm and copper Japanese hibachi table. It has a great design and clearly very well made with large dovetail jointed corners and beautifully shaped top. The piece includes 3 small drawers and the original copper liner. On the sides there are recessed handles. This with a piece of glass covering the copper liner would now make an amazing coffee table or large ice bucket for a very grand party. Height 38cm Width 80cm Depth 58cm
