Description

Antique Elgin pocket watch, 1913. The watch has a good quality 15-jewel stem-winding movement, grade 366, which is working nicely. The movement is fully signed and it has the serial number 17,200,534 which dates it back to 1913. The movement is protected by an inner hinged cover... there is some surface marking to this inner cover. The watch measures 50mm excluding the winding stem and the loop. The case is gold plated. Overall the case is in good condition, a little rubbing to the back and fairly gentle unevenness. The glass lens is in good condition. The signed dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and outer minute track. The watch comes in a new presentation box.
