Description

In lovely aged condition, we have a fine quality set of 6 dining chairs in English oak with the seats and backs in high quality brown grained leather - not only great looking but very comfortable. The set of 4 plus 2 carvers sit in a very similar condition. The heavy set and carved frames have sensible and desirable historic wear. Fortunately the seats and backs of all the chairs have enjoyed a very recent professional refurbishment with new filling and leather, not vinyl, covering with aged brass studs and leather edged binding making them highly supportive and comfortable. Also worth noting that leather, unlike faux leather, will age wonderfully well. We have ensured the set is ready to place and use. A great set of English oak and leather dining chairs which are going to look fab in the right space.
