Date of manufacture: 19th Century

Dimensions

Height = 12.5 cm (4.9")

Width = 17 cm (6.7")

Depth = 4.5 cm (1.8")

Description

A bronze of good proportions and naturalistic form, depicting a bird at her nest with her fledglings. The bronze is crisply cast with exceptional attention to details throughout. Small details such as the worm in the mother's beak is superbly fine and in perfect proportion. The smallest fledgling remains in the nest whilst the two larger roam the landscape. The fledgling to the right has a little movement but remains firmly affixed. Signed lower centre.
