**Date of manufacture: 1950**

## Description

Gents 1950s/60s Bucherer automatic wrist watch. The watch has a good quality 25-jewel (2 adjustments) automatic movement, an ETA calibre 2452, which is working nicely. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in lovely condition. The screw-on case back states that the watch is water resistant but, as with any vintage watch, it should be kept away from water and moisture. The lens looks good to the naked eye, a couple of small marks if viewed through a jeweller's loupe. The dial is signed Bucherer. It is in its original finish with original hands, centre seconds hand and a date display (an early form of quickset where the date is initially set by turning the hands backwards and forwards between 12 midnight and 8.30pm). A new leather strap has been fitted. The watch comes in a new presentation box.
