Description

Antique 19th century Victorian set of four dining chairs in oak, an impressive and highly decorative matching set displaying exceptional period character and beautiful detailing throughout. Very well made and of good quality, these handsome chairs combine elaborate Victorian styling with generous upholstered seating, offering both comfort and visual appeal. Each chair is beautifully decorated with highly detailed carved decoration throughout, showcasing the attention to detail invested in their design. The overstuffed seats and padded backs are upholstered in an attractive beige-coloured material, providing a subtle contrast against the rich tones of the oak. Raised on beautifully turned legs united by supporting stretchers, the chairs are also fitted with castors for added practicality and ease of movement. The oak displays gorgeous natural grain and a rich, warm colour throughout, further enhancing the depth of the carved detailing. Their elegant proportions, quality construction and abundance of decorative features make this a particularly desirable set. All four chairs have solid frames with no unwanted movement, making them ready for continued use. Presented in go...
