Description

A super oak sideboard from Heal's of London with the maker's button to the top right hand drawer. This one from Heal's is of good scale and of the quality you would expect from Heal's with careful choosing of timber and spot on design wise. A lot to admire with this one - the tone of the oak is just lovely, the rounded chamfered vertically moulded columns to the front corners and legs are super, the little oak knobs a delight, the well shaped low back plinth to the top is just perfect - to be honest a great piece from Heal's. The set up has 3 drawers running across the top below which there are 3 cupboard doors hiding two spaces with removable recessed shelves. We have a working lock and key for the middle drawer and also one for the left hand side single cupboard. The piece is neat and ready for pacing with no faults, just a little sensible aging. A handsome piece from Heal's of London c1930.
