Item Reference: SA1230603

Date of manufacture: 19th Century

Description

A large and beautiful solid elm refectory table with planked cleated top over solid elm blocked feet with original pegged stretcher. The table can be dismantled easily – two very heavy solid block and shaped feet, the three boarded cleated top and a stretcher that unites the legs, gives strength and is held with original triangular pegs which lock the stretcher in. . Wonderful colour and very tactile. Natural splits, cracks and losses consistent with 200 + years of use and love and, one must assume, a lot of family parties, good times and good service. . These tables are hard to find with original finish and such great character and colour. . Will provide great service and look beautiful in any room and seats eight guests in comfort. . Made by hand in c. 1820 by a skilled provincial craftsman. Shown here with a set of early 19th century rush seated spindle back chairs and others available separately. A good height, so any dining chair with a seat height of 18 inches, plus or minus 1 inch, will work. . Strongly recommended, a lovely rustic table with a great colour and loads of character. . . Dimensions are: . 90 inches long, 32 inches wide, 29.5 inches high
