Description

"A late 17th-century solid oak panelled chest, the front relief carved with floral and geometric decoration. The central panel bears the initials "T.S." and the date 1690. Panelled sides and top. The lid is secured with wire hinges, and the chest is constructed using pinned mortise and tenon joints. The date places it at the close of the 17th century, a period of transition in English furniture. While later William and Mary pieces moved toward lighter proportions, this example retains the weight and grounded character associated with earlier oak traditions. Condition Report In excellent antique condition. Small historic chip to the front right edge of the lid and to the lower right foot. Along with a historic ironwork repair to the rear. The photographs form part of the condition report, so please review them carefully. Further images or a video viewing can be provided on request. Viewings are welcome at our Southampton unit, strictly by appointment. If you have any questions regarding this piece, please don't hesitate to get in touch."
