Date of manufacture: 18th Century

Dimensions

Height = 71 cm (28.0")

Width = 83 cm (32.7")

Depth = 44 cm (17.3")

Description

A fine jointed oak gate leg table from the 18th century, with beautifully turned legs, a single fall and a single drawer. The proportions are pleasing, and the craftsmanship evident in the details. While likely once a kitchen workhorse, this table now feels more suited to life as a console table in a hallway or sitting room. A piece with centuries of service now ready to be admired for its form and history. Condition Report The table shows its age with a few honest marks: the top is a later replacement, and the fall is missing part of its extension. There is some slight movement in the frame, historic worm evidence to the feet, and a couple of old repairs. None of this affects its integrity. It remains solid and full of character. The turned legs are particularly appealing and a strong reminder of the quality of 18th-century joinery. The photographs form part of the condition report, so please review them carefully. Further images or a video viewing can be provided on request. Viewings are welcome at our Southampton unit, strictly by appointment. If you have any questions regarding this piece, please don't hesitate to get in touch.
