Description

Antique 20th century Arts & Crafts side table in oak, an appealing piece with an interesting geometric form and plenty of character. Well made and of good quality, the design has a simplicity that works particularly well with the natural warmth and texture of the oak. The hexagonal-shaped top gives the piece its distinctive appearance, setting it apart from more conventional designs of the period. Beneath, a useful lower shelf provides additional space for books, ornaments or decorative items while complementing the overall shape. Gorgeous grain and colour can be seen throughout, with the natural variations in the oak adding depth and individuality. Its combination of geometric styling, practical proportions and Arts & Crafts influence makes it a very desirable example. In good condition, this characterful side table offers something a little different and would bring warmth and interest to any interior.
