

SA1231720

19th century pair of walnut nursing chairs for re upholstery

Price

GBP 250

| USD \$341 | EUR 292

Item Reference: SA1231720

Date of manufacture: 19th Century

Description

RETIREMENT SALE. 50% DISCOUNT. WAS £500. NOW £250 Crafted from solid walnut with a rich, warm grain, the frames feature elegant architectural fluted stiles flanking an upholstered backrest. The top cresting rails are beautifully embellished with crisp, hand-carved Renaissance Revival foliate motifs. The lower back rails display complementary shallow-carved leaf details. The chairs are raised on robust, ring-turned front legs that remarkably retain their original 19th-century porcelain and brass casters, while the square-section rear legs flare gently outward for stability. While the walnut frames remain structurally sound, sturdy, and free from major breaks, the current blue and gold damask fabric is worn out and requires complete reupholstery. This pair offers an excellent opportunity to create a bespoke, high-end seating set tailored to a modern interior design scheme
