**Date of manufacture: 1960**

## Description

Gents 1960s Omega Seamaster Cosmic wrist watch. The watch has a hand-winding movement which is working nicely. The watch measures 34.5mm diameter excluding the winding crown and the lugs. The case is stainless steel, it is in good condition with just light surface marking. The back of the watch has the Seamaster logo and the original owner's name lightly engraved. It states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The signed dial is in its original finish with original hands, centre seconds hand and date display (initially set by pulling the crown in and out). There is light marking to the dial and a little distortion. A later leather strap has been fitted with an after market Omega buckle. The strap has wear inside. We can fit a replacement new black leather strap if preferred. The watch comes in a new presentation box.
