

SA124174

Large Antler Horn & Sterling Silver Handled Magnifying Glass - 1882

Price

Sold**Item Reference: SA124174****Date of manufacture: 1880**

Description

A good sized magnifying glass, measuring 9 1/2" in length with a glass diameter measuring 4", quite impressive. The antler horn handle is finished with a solid or sterling silver terminal and ferrule both with a decorative repousse design, both hallmarked for Sheffield 1882, so Victorian in era. The silver also benefits from having the design registration diamond too (always a highly desirable feature). The nickel framed glass is of course new, making it very usable piece, without damage, clear and with a good magnification. A superb desk accessory in excellent condition.
