Sold**Item Reference: SA130989****Date of manufacture: 1880**

Description

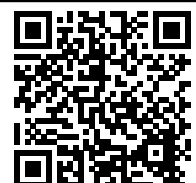

A large sized magnifying glass, measuring 10 1/2" in length with a glass diameter measuring 4 1/2", quite grand. The antler horn handle is finished with a solid or sterling silver terminal and ferrule both with a highly decorative repousse design, both hallmarked for Sheffield 1886, so Victorian in era. The silver also benefits from having the design registration diamond too (always a highly desirable feature). The nickel framed glass is of course new, making it very usable piece, without damage, clear and with a good magnification. A superb desk accessory in excellent condition.
