

SA132475

London Longcase Clock by William Allam

Price

Sold**Item Reference: SA132475****Date of manufacture: 1750**

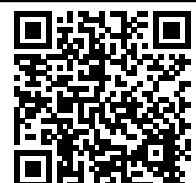

Description

An important and desirable mahogany Longcase Clock with Vulliamy style features. The high quality 8 day duration 5 pillar movement striking the hours on a bell. The 12" square brass dial with separate silvered brass chapter ring, matted centre, subsidiary sunken seconds ring, square date aperture and strike/silent facility above XII. The dial also with exquisitely made blued steel hands and the very rare feature of double screwed spandrels as used by Tompion & Graham. The substantial case featuring the highest quality flame mahogany veneer to the wide trunk door. The base also with a flame veneered raised rectangular panel and a plain double plinth standing on four robust mahogany pads. The hood with brass inlaid reeded pillars with brass Doric capitals, quarter pillars to the rear and a Vulliamy style architectural top. Height: 7'3" Note: William Allam appears to have had some influences from the more well known makers during the 18th century such as Mudge & Dutton and also Vulliamy. The hands and spandrels are typical of work by Mudge & Dutton. The use of a square dial at this late period is also a style used by Vulliamy. The clock also features two original brass cov...
