Description

WE ARE SORRY THIS WATCH IS NOW SOLD. TO SEE OUR LATEST FULLY RESTORED WATCHES PLEASE VISIT OUR MAIN WEBSITE WWW.FOWEYRIVER.COM ~~ Totally original and unrestored ~~ This is a rare example of a rare 2280 manual wind wristwatch made by the world renowned premier swiss maker Rolex. The movement is running fine, running for 36hrs between winding and accurate to within 10 seconds per day. As you would expect from Rolex the watch is fully marked on the dial, movement and case. The dial is totally original but has faded and aged, the wording for Rolex Oyster is quite difficult to read. The crown threaded stem tube is full length and has not been ground down or shortened and the crown screws in tightly and correctly. The watch case is large measuring 30mm in diameter not including the crown. Overall this is a good honest un-messed with early collectors piece in good running order totally original condition, it has not been restored in any way as the majority of Rolex collectors prefer them not to be. This is a 100% genuine Rolex Oyster Royal watch not a copy, replica or reproduction. For more information please contact Andrew and Lynn Wilson of Fowey River Antiques...
