Description

Inlaid with a geometric parquetry design and an ebony and ivory disc in the centre of the block pattern, this fantastic rosewood circular snuff box is assumed to be Tunbridge Ware but of an unknown pattern. (Unless someone out there knows differently) It is extraordinarily tactile and fits together with very fine tolerances requiring a satisfying amount of force to open and close it. Size Diameter - 3.75" (9.5cms) Height - 0.75" (2cms)
