Description

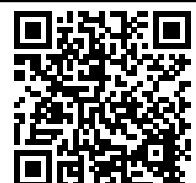

A wonderfully elegant pair of late Victorian Binoculars, a wonderful and unusual long shape with a textured black composite covering. They have pull out sun shades at the end. These have been professionally re-polished to gleam, creating a really showy decorative accessory. They have been well protected over the years by it's original leather case with velvet lining, which does show signs of wear but intact and having done a great job over the last 100 years or so. Visually in great condition and in excellent shape aesthetically. They measure 7 1/2" in length closed and when fully extended with sun shades in use, they measure 11" in length. The case measures 8 1/2" x 5". Item ID: 33714 FREE Worldwide Registered Airmail Directly From London, England
