

SA140039

Handsome Antique Silver Plated Pierced Centerpiece - English Reg. No. For 1911

Price

Sold**Item Reference: SA140039****Date of manufacture: 1910**

Description

A wonderful and highly decorative centrepiece, ready for your fruits and nuts and perhaps some chocolates in the hanging baskets. The stem is rather unusual and highly decorative with its pierced or reticulated form, complimenting the attractive pierced edge to both the bowl and baskets. The interiors of all pieces are lavishly gilded. All three pieces have matching makers marks for the silversmith, Mark Willis & Sons of Sheffield. I also was lucky enough to find an English design registration number (592039) for the year 1911, celebrating its 100th anniversary this year! Excellent condition, measuring 12" tall with the dish measuring 9 7/8" in diameter. Item ID: 33754 FREE Registered Worldwide Airmail Included; Insurance Optional.

Internal Ref: 33754
