Description

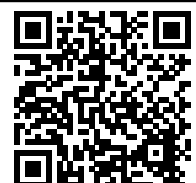

Probably one of the most decorative I have had in some time, this medium sized Magnifying glass has the most superb sterling silver handle made by the highly renowned Adie Brothers. The back of the handle is fully hallmarked for Birmingham 1923 and also marked "Guaranteed Tortoiseshell". The front of the handle is inset with a glossy piece of Tortoiseshell with a very pretty pique inlay. All of this is surrounded with a raised border of a continuous Accanthus leaf garland. The handle is joined to the nickel framed glass with a pretty sterling ferrule. The magnifier is of course new (by Hilkinson), creating a clear, undamaged glass with a good magnification, making this a very usable desk accessory. Excellent condition, measuring 6 1/4" long with a glass diameter measuring 2 1/2". Item ID: 33845 FREE Worldwide Registered Airmail Directly From London, England
