Description

A unique and spectacular early 18th century Month duration walnut longcase clock by this famous maker. The substantial Month duration 5 pillar movement with the rare use of a Dutch striking mechanism. Striking the main hours on a large bell and the forthcoming hour on a smaller bell at half past. The high quality movement with a delicately made recoil anchor escapement, well turned pillars and large brass plates. The full brass dial with an unusual dial layout featuring Atlas/Father Time sitting on a large silvered brass cartouche engraved with the makers name and place of work. The dial also with a separate silvered brass chapter ring, well matted centre, seconds, date, finely cut blued steel hands and four brass Putti, two on clouds holding torches and the others sitting on eagles. The extremely elegant and impressive Anglo/French burr walnut veneered case with the rare use of a bevelled mirror to the trunk door, brass mouldings throughout and a plain base with a double plinth terminating in flat bun feet. The hood with barley twist pillars mounted with large brass Doric capitals and an impressive caddy top with elaborate mirror backed walnut frets to the front and si...
