Item Reference: SA166792

Date of manufacture: 19th Century

Description

This a print of a map of Northumberland by John Speed, it is dated on the map 1610 but clearly has been reframed at some time in a more modern but really nice frame. there is apparently information noted on the back of the print but we have not removed the back to inspect, I believe this to be a later copy but clearly has some age, probably 19th century.
