Depth = 18 cm (7.1")

Description

A stunning example of a top quality fusee bracket clock. The flame mahogany case is of light to medium colour and has a patina that only timber of this age can possess. The 8 day, chain driven fusee movement has just been fully overhauled in our workshop by our BHI registered staff and is in pristine condition. The 9" painted dial has black Roman numerals and minute ring. It is signed with the makers name "ALFRED DALE. LLANELLY". It has a key operated, cast brass bezel. The rear door is glazed allowing the heavy brass pendulum to be seen working from the rear. Alfred Dale was born in Suffolk and the London style of this clock would suggest that he was apprenticed in the city before ultimately moving to Llanelly. Dimensions: Height 18" (46cm) Width (max) 14" (36cm) Depth (max) 7" (18cm) NEW LOW PRICE !!!
