Description

Japy Freres Antique Ebonised Wood and Brass Table Clock Set ~ French - Circa 1890 ~ ~ Excellent condition ~ ~ A superb clock set by the famous maker Japy Freres. It is Classical in style, the clock has four ebonised corner columns with pineapple finials, a heavy base with acanthus leaves and is surmounted by an urn with swags, Reynolds's angles and a flaming torches finial. The ebonised wood contrasts very nicely with the clean and bright finish of the brass, each part of which is finely modelled and finished. The dial has an ebonised wood back with a fretted brass decoration inset with 12 individual enamel cartouches and the original silver steel hands. Both the front and rear bezels are glazed with convex glass, the rear allowing the movement to be seen. The clock set is modelled in the round and therefore would display very well on a table. The Japy Freres movement is of this makers usual high quality. It runs for 8 days and strikes half hourly on a bell and is complete with a replacement pendulum and bell. It has been fully overhauled by our clock maker and is in excellent working order. Click the movie below to hear the gong and watch the clock running! Condition...
