## Description

Tall Oak Rotating Stool - Fully Adjustable - c1940 A lovely oak architect stool with leather seat and presented in excellent order. The piece offers much in the way of comfort with overall height adjustment, back support height adjustment, rear rest angle and spring tension adjustment. The chair would work excellently in any location, residential or commercial, and would make a fine feature piece or is suitable for daily use. A solid oak quad form base rides upon castors and supports the central engineering where the adjustments for height and spring tension are made. The upper section rotates around the centre and the seat displays excellent golden oak colour and grain. This is matched at the back rest where a further original cast adjuster compliments the whole. An excellent example of good build quality and unusual in this condition. Please do not hesitate to contact us if you require further information - we are here to help 50cm - 62cm (19.7" - 24.4") Seat height Please see the images for the dimensions of this item We offer a 100% satisfaction guarantee We ship Worldwide

Internal Ref: 1599
