Description

Victorian Fireside Fuel Store Cabinet - Oak - c1870 A pleasing Victorian oak flap-door coal/wood store cabinet which has 'auto-open' doors which part when the top brass knob is lifted. This example benefits from a very attractive solid brass embellishment throughout including; the Royal crest, patent plate, feature corner plates with raised detailing and top handle. Inside there is a lift out metal liner scuttle. Overall a super piece of fireside furniture which looks attractive and functions nicely. The piece is clean and well presented.
