Description

Double height Corner Display Cabinet - Victorian Pine - c1850 This Victorian pine cabinet is a splendid example and is ideal for both display and storage. Rising from a moulded plinth through a pair of lower field panel doors into an upper section with twin panel doors capped by an attractive crown detail. Of good proportion it presents canted corners and a classic appeal with a warm tone to the Victorian pine. The interior benefits from the dome top design that is evident when the doors are in display position. The 'barrel-back' interior is a sign of the quality of the piece and it makes a pleasing interior when combined with the triple shelves, rear plate stands and column carvings. Overall a rare corner display cabinet in this style and condition. It is in good condition throughout and will suit any location.
