Description

This is a very fine and beautiful example of a milk jug made by the world renowned premier Danish manufacturer Royal Copenhagen. It came from an important castle estate sale in Scotland and was probably purchased from new. This is the extremely popular Blue fluted pattern with the delicate blue floral motif on a white fluted background. It has the painters number of 46. This particular jug is of first quality, the stamp of Danmark with the three lines dates it to between 1894 and 1900 after which the stamp changed. It is of first quality with no scratch through the three lines to indicate it is a second. There are no chips, cracks and no restoration has been undertaken. It measures 6.5 inches high.
