

SA190754

Antique Victorian Mahogany Bookcase

Price

Sold**Item Reference: SA190754****Date of manufacture: 1860**

Description

Antique Victorian Mahogany bookcase in good original condition. This is one of the better models I've had, both in terms of quality & shape. It has curved ends from top to bottom & arched doors, with two drawers in the middle that have the original brass handles. The glass in the top doors looks original & you can just make out the small bubbles in the glass. Inside are three adjustable shelves on sharks teeth supports. The drawers have fine dovetails & solid mahogany bottoms. The bottom cupboard doors have mahogany fielded panels, with a single removable shelf inside & in all sits on a plinth base. Like I said, this bookcase is totally original & I would date it to around the 1860 period. Width --- 42" (107cm) Depth --- 18.5" (47) Height --- 87" (221)
