Description

A really unusual box, in the form of a miniature Victorian trunk made from the same materials as full size trunk, created in wood and galvanized steel. This could quite possibly have been a salesman's sample. The cast brass hinged catch and lock are intact and working, complete with a tasseled key. The interior would have had a tray that sat inside but over the years has gone astray or been removed by the previous owner. The brass rivets and catch have all been re-polished to gleam, this really has a great look, perfect for the miniature collector or perfect for the doll collector to store clothes. Excellent condition (one piece of missing metal strap on the top left hand corner) and dating to around 1880, Victorian in era. 11 3/4" x 7 3/4" x 7 1/2".
