Description

An arch-topped, ivory and gold painted Grandmother clock with arched brass dial. The 8 day, JUNGHANS movement strikes on the quarters, playing the Westminster chimes. The clock has just been fully serviced by our BHI registered staff. The case, just 6' 5" tall, is finished in an off-white, ivory paint with sympathetic gold painted highlights. Both the hood door and trunk door are key lockable and the brass pendulum can be seen working through the bevelled glass panel to the lower door. A very smart clock. Dimensions: Height: 6' 5"

Width 17" Depth 10"
